## ABOUT ME . . .

---

Having lived permanently on Maui, Hawaii, for fourteen years, Daruni came originally from the United Kingdom.

As a teenager Daruni knew that Interior Design was her natural career path as she passionately directed all her choices since high school towards getting into the Design world. At College & then University, Daruni successfully achieved a BTEC National Diploma followed by a BA with Honors Degree in Interior Design and Architecture.

The first part of her Interior Design career was in London, where she attended a post-graduate placement with one of the top Design companies which led her into her professional career. Whilst working and living in London, she built up a renowned and impressive Client base. With extensive travel under her belt, Daruni honed her eye for beautiful, functional and comfortable spaces.

For more than fifteen years Daruni has achieved client satisfaction by working with clients creating a personal relationship with each to smoothly achieve their perfect space.

Daruni's design experience also includes the successful completion of very varied projects which include vacation properties, residential projects, hotel & restaurant interiors, for instance in the exclusive areas of Wailea and in other island locations such as Lahaina, Kihei & Spreklesville.

With her frequent travel to various design, fabric and furniture expositions, Daruni is constantly inspired and exposed to new

---

style & trends which inspire and broaden her scope and influence her design work, furnishing her with the ability to blend a mix of styles and periods, ranging from very contemporary to elegantly traditional to suit each individual client's tastes.

Team work is a critical component of a successful interior design project and Daruni has the experience of working closely in hand with both clients and contractors to ensure that projects meet the client's expectations. Whether it is residential or commercial, large or small, Innerpiece Interiors will smoothly handle it.

Daruni looks forward to working with you!
